

La Araucanía, Chile — Physiography, Volcanic Arc & Settlements

A — Chile & Wallmapu overview

B — La Araucanía: physiography, volcanic arc & settlements

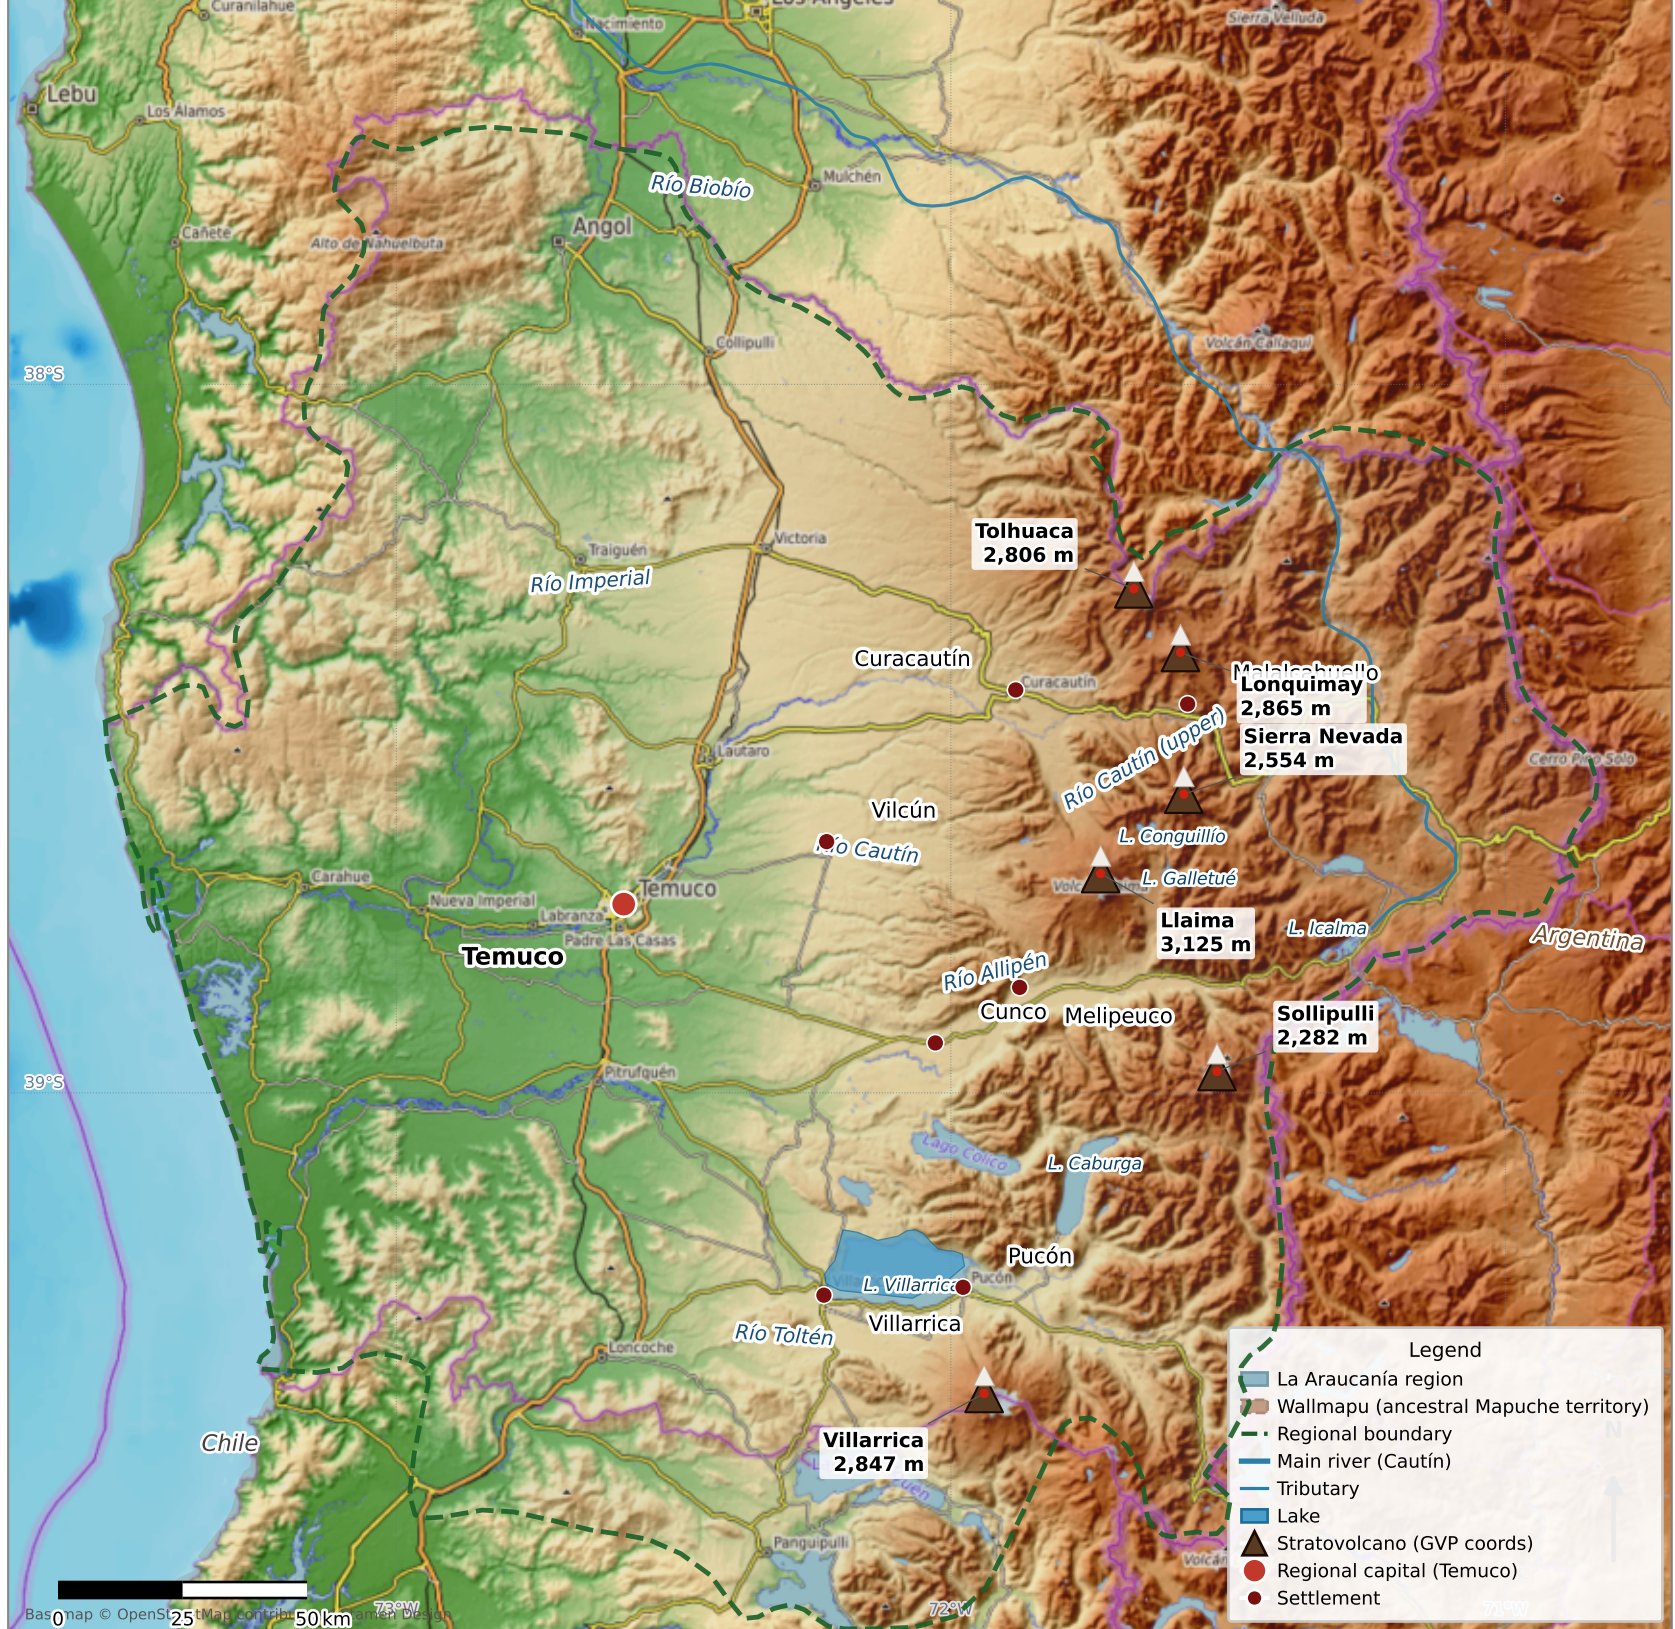

Figure 1. (A) Chile overview showing La Araucanía (teal) and the approximate extent of Wallmapu (sienna), the ancestral Mapuche territory from the Mapocho River (c.33.5°S) to Chiloé (c.43.5°S). (B) Araucanía detail on a terrain tile basemap showing the Southern Volcanic Zone arc (Tolhuaca, Lonquimay, Sierra Nevada, Llaima, Sollipulli, Villarrica), the Río Cautín drainage network, major lakes, and key settlements. Volcano coordinates: GVP Smithsonian. Basemap: Stamen Terrain / OpenTopoMap. Administrative boundaries: Natural Earth 1:10 m. Projection: Web Mercator (EPSG:3857).
